

## ZORBIFRESH™ ACTIVE HELPS WITH

- A bedding additive for cows, calves, equine and swine
- Absorbs up to 100% of its weight in moisture
- Reduces odour for a safer environment
- Starts killing bacteria (including Staph aureus and E. coli) as soon as it is applied and keeps killing beyond 24 hours

## WHY USE ZORBIFRESH™ ACTIVE?

- **Zorbifresh™ Active** can be used as part of a regular process to keep calf pens clean and disease free, but is also highly effective in larger doses post a bacterial outbreak.
- **Zorbifresh™ Active** starts killing bacteria (including Staph.Aureus and E.coli) as soon as it is applied and keeps killing beyond 24 hours.
- **Zorbifresh™ Active** absorbs up to 100% of its weight in moisture, soaking up ammonia and nitrates. This prevents ammonia from turning into ammonium and keeping the air fresher for longer, healthier for both animals and workers.

## HEALTH AND SAFETY

Material safety data sheets are available on request.

## LABORATORY TESTED

**Zorbifresh™ Active** has been tested using the industry standard laboratory efficacy evaluation test.

- **Zorbifresh™ Active** is 100% effective against Staph aureus and E. coli after 1 hour exposure.
- Organic soiling of the bedding reduced the efficacy of **Zorbifresh™ Active** after 1 hour exposure but 100% kill was achieved after 24 hours exposure.
- **Zorbifresh™ Active** kills bacteria such as Staph aureus and E. coli and other gram negative and gram positive bacteria.

## DIRECTIONS FOR USE

- From 250g to 500g per square meter of animal bedding.
- Housed dairy cows once a day during times of bacterial challenge.
- For other applications 1 to 2 times a week depending on stocking rate / moisture / ammonium and bacterial levels.
- DO NOT feed to animals, although it is non toxic if accidentally ingested.
- For use on all bedding types.

## INGREDIENTS

- Natural BPM Zeolite from New Zealand
- Oxone
